THE DEAL

Yorkville Towing is a dispatch-first brand built to rank #1 online for Yorkville / Kendall towing. We capture stranded drivers (web form + AI receptionist + ads). You run the truck. Exclusive leads are \$100 each when you accept the job. Shared overflow is \$50. No monthly retainer required to start.

What you get in every lead

- Name + cell (required) + email when available
- Exact location / cross-streets / GPS when phone allows
- Vehicle year-make-model + job class
- Urgency + destination shop if known
- Suggested route: light vs heavy already tagged
- Source channel (web / AI phone / ads)
- You get first right of refusal on your zip/job type

Why partners take this

- Your website is not the problem — demand capture is. Area 47, Heavy Duty LLC, and McKay already own trucks; none own a modern conversion + AI dispatch front door.
- We beat thin competitor sites and out-of-town SEO farms (Classic/O'Hare style geo pages) for local intent, then hand you the job.
- You keep your brand on the truck and the invoice. Yorkville Towing is the marketing + phone layer.
- Start with exclusive light-duty Yorkville zip or exclusive heavy/semi — your call.

Operating rules

- Accept window: reply within 10 minutes (15 nights) or lead may roll to next partner.
- You quote the customer before the hook — matches our public promise (kills surprise-bill complaints).
- Net terms: weekly invoice or card-on-file; unpaid 7+ days pauses exclusivity.
- Illegal / uninsured jobs refused. Illinois ICC / tow rules on you as the operator.
- We never claim your truck is '5 minutes out' unless you confirmed ETA.
